ABOUT ME

Lead automation engineer with 8+ years shipping production systems that eliminate manual work at enterprise scale - each deployment typically freeing 10-20 FTEs. Now applying that same delivery discipline to AI: building agentic workflows that combine LLMs with traditional RPA. Polyglot builder (Python, C#, R, SQL) with an active open-source portfolio at github.com/mlbrilliance and membership in the Agentics Foundation.

EDUCATION

Master's Degree, Computing & Information Systems

University of the South Pacific
2013-2014

Post Graduate Diploma, Computing & Information Systems

University of the South Pacific
2011 - 2013

B.Sc., Computing Science / Information Technology

University of the South Pacific
2003 - 2007

ABILITIES

- Python, R, C#, JavaScript, SQL
- Machine Learning & Data Science
- LLMs and agentic AI workflows
- RPA (AssistEdge, UiPath) & intelligent document processing
- Oracle, SQL Server, MySQL, Power BI
- VMware, Linux, Windows Server

LANGUAGES

English (Professional)
Hindi (Native)
Fijian (Elementary)

EXPERIENCE

2019 - Present

WEX INC.

LEAD ROBOTIC PROCESS AUTOMATION ENGINEER

Lead architect of the enterprise intelligent-automation platform for a Fortune 500 fintech. Design ML-augmented bots for unstructured-document processing at scale. Mentor automation CoE engineers and own architecture, code review, and delivery standards across the program.

2017 - 2019

COGNIZANT

RPA ENGINEER

Shipped end-to-end AML automation in AssistEdge, freeing 15-20 FTEs and cutting processing time from days to minutes. Built relationship-manager insight bot that saved 10 FTEs. Authored custom C# and JavaScript plugins extending RPA tooling beyond native capabilities. Created the "RPA Amenability" framework for ranking automation candidates.

2015 - 2016

DHL

IT MANAGER / IT PROJECT MANAGER

Delivered \$3M Global Dispatch System - handheld scanners, computer-aided dispatch, real-time tracking. Led \$300K Avaya UC&C rollout. Managed \$5M+ capital/operating budget. Won the 2015 Deutsche Post DHL Asia Pacific IT Excellence Award.

2007 - 2013

HOUSING AUTHORITY OF FIJI

SENIOR ANALYST PROGRAMMER

Built BI platform integrating disparate databases with data mining and executive dashboards. Led MS Dynamics Nav ERP and IndusSoft lending-system implementations replacing legacy infrastructure.
